

11/5/12

Sarah McQuaid came to visit twenty of our keen guitar students at school last week. Our students ranged from beginner to advanced players. Sarah taught the students the tuning she plays with "DADGAD". The workshop was practical and hands on and our students were enthralled with its unique sound, impressed by the fullness of the chord progressions and the range of chords available with this tuning. Sarah showed them different tricks of the trade, helping them to practice flamenco progressions, rock chords and blues sounds. Our guitar students were delighted to have something new to go home and work with. Some brought their new tricks back to show their guitar teachers. One student quoted "I wish every class could be this much fun". Huge thanks to Sarah for inspiring the boys and putting on a fun filled practical workshop.
